

### A new green outlook on our Red Shield™ Warranty.

Everyone in the commercial building industry is making an investment in “greener” systems, materials and building practices. Now, Firestone is backing your investment in the future with an investment of our own: the Firestone EnviroReady™ Roofing System and Warranty.\*

This comprehensive program allows building owners to install a high quality conventional roof today and upgrade it with green roofing technology tomorrow. Firestone’s Red Shield™ Warranty keeps your new EPDM or TPO roof “enviro-ready” for responsible upgrades for up to 7 years after initial installation, so you can go green in a way that matches your needs and your budget.

Thanks to the EnviroReady™ Roofing System, you can plan for future environmental roofing upgrades with more accuracy and more confidence. Our industry leading Red Shield™ Warranty makes sure you’re not just installing the products you need, but you’re receiving the coverage you need to maintain everything that will go under your next “green” roof. Firestone’s exclusive program provides premium system offerings with 20-, 25- and 30-year warranty options to help you achieve your sustainable building goals.

\* EnviroReady™ Roofing System available in select EPDM and TPO Roofing Systems. See your local Firestone sales representative for details.

## Contractor Solar Program

Providing products, service and support to brand, market and sell solar solutions.

**Firestone**  
ENERGY SOLUTIONS

## *Harnessing the Sun's Energy From Every Rooftop.*

Solar technologies continue to increase in popularity as a renewable energy alternative driven by the rising cost of energy, utility demand, and expanding federal and state incentives. Firestone Energy Solutions is committed to providing products and systems that assist in the conservation and production of energy for the building envelope.

As a roofing professional, your expertise in roof installations is a critical component of the solar rooftop system. This program is designed to provide you with the opportunity to expand your business and develop new clientele through Firestone Energy Solutions products, systems, and services to establish your business in the growing solar industry.

In combination with Firestone roofing products, you will have a unique opportunity to provide your customers with a single-source option for all products associated with rooftop photovoltaic solar installation. In addition, warranty coverage is available for both the roof and PV systems from a company you know and trust.

Firestone Energy Solutions is pleased to offer you the opportunity to provide photovoltaic solar solutions to your commercial customers.

Through a comprehensive offering of products, service and training, Firestone is positioned to provide either turn-key or custom solar solutions. Firestone Energy Solutions offers various solar and installation technologies that include:

- Crystalline Panels
- Thin Film Panels
- Penetrating Racking Systems
- Ballast Racking Systems

From leading manufacturers such as:

- Sharp™
- Evergreen™
- Shott™
- Yingli™
- Uni-Solar™
- Solyndra™

As a licensed Firestone Energy Solutions Contractor you will receive:

- Single Source Warranty Coverage
- Installation Training
- Sales Assistance
- Sales & Marketing Literature
- Financial Analysis
- Estimating Services
- Details & Specifications
- System Engineering
- Balance-of-Systems
- System Monitoring
- Customer Financing Options
